Collaboration Boards and Easels

Collaboration Boards

Designed with function, sustainability and lean manufacture in mind, the new *Full Circle Series* of collaboration boards from Iceberg employ materials that are recycled or may be easily recycled after use. Creative use of available new materials, like bio board substrates and recyclable materials like steel, aluminum, glass, and resin result in products that do not waste resources, are attractively designed, provide outstanding performance and long lasting use.

clarity

Glass Dry Erase Boards

The Clarity series exemplifies cutting edge design and function. The writing surface is 1/4" tempered glass. An ultra white backing, combined with the glass surface, maximize visibility, clarity and ease of erasing and cleaning. This surface will never ghost. The frameless board design easily and securely mounts to the wall using 4 architectural blocks which serve a dual function as marker and eraser storage.

- 1/4" tempered glass dry erase surface with ultra white back
- Frameless board design
- Downward pointing marker retention
